PERSONAL STATEMENT

*I am a sixteen-years old student. I am a secondary school student and I especially love maths and chemistry. My ambition is to become a doctor in order to reduce poeple's pain and save their lives. I also attend french and gym classes. I used to do tracks and field but I don't have time for that anymore. I spend my free time listening to music, chating with my friends or reading books and I enjoy going for a walk when I want to feel better. My favourite season is winter, although I can't help but being in the sea all day in the summer.*
